The Utah Procurement Code provides that a procurement may be made without competition when there is only one source for the required supply or service. Therefore, a "sole source" procurement is justified if there is only one product or service that can reasonably meet the District's need and there is only one vendor who can provide the product or service.

Wasatch Integrated Waste Management District (District) is giving notification to make the following sole source procurement.

Product and/or service to be purchased: MULTISTAGE GAS BLOWER ZM 05107, MULTISTAGE GAS BLOWER ZM 08811, EXCHANGE, AND INSTALLATION

Proposed Sole Source Supplier: ATLAS COPCO

Sole Source Justification: The most important consideration is the compatibility of equipment, technology and, replacements parts. Atlas Copco engineered and installed the compression skid blower exchange system for the district.

If for any reason any party does not agree with the proposed sole source procurement indicated above, please email Todd Quinley, Purchasing Manager, at [toddq@wiwmd.org](mailto:toddq@wiwmd.org).
