The Utah Procurement Code provides that a procurement may be made without competition when there is only one source for the required supply or service. Therefore, a “sole source” procurement is justified if there is only one product or service that can reasonably meet the state’s need and there is only one vendor who can provide the product or service.

Wasatch Integrated Waste Management District (District) is giving notification to make the following sole source procurement.

Product and/or service to be purchased: Delta V support
Proposed Sole Source Supplier: PCE PACIFIC, INC.

Sole Source Justification: The most important consideration is compatibility of products as (Emerson) Delta V is the automation system currently in place at the Davis Energy Recovery Facility. PCE Pacific, Inc. services the region in which the Davis Energy Recovery System operates.

If for any reason any party does not agree with the proposed sole source procurement, please email Todd Quinley, Purchasing Manager, at toddq@wiwmd.org.
