Green Waste & Products

Green waste is accepted at the Davis Landfill's green waste recycling facility. Waste accepted includes:

CLEAN GREEN WASTE

- Tree and Shrub Trimmings
- Wood Pallets
- Clean Lumber
- Leaves
- Lawn Clippings
- Manure
- Chipped Limbs

Cost is \$20 per ton with a \$5 minimum charge.

Finished product

Saleable product at the Davis Landfill includes three sizes of wood chips and compost:

WOOD CHIPS

Place mulch on soil surface for:

- Organic Enrichment
- Moisture Retention of Soil
- Reduced Soil Temperature
- Reduced Weed Growth
- Natural Looking Beds
- Reduced Vegetable Rot by Minimizing Soil Contact

Mulch is excellent for moisture retention of vegetable gardens or beds. It has a more natural look than artificially dyed bark, while still retaining a decorative quality. Mulch can be used to bring focus to flower beds, make pathways through landscaping, or define areas of interest.

\$10 per scoop (fine, medium, and coarse)

Grinding green waste

Loading a customer vehicle with compost

COMPOST

- Improved Soil Structure
- Addition of Microbe Activity Nutrient
- Improved Soil pH
- Improved Resistance to Insect infestation and plant disease
- Does not deplete nitrogen in the soil.

\$25 per scoop or \$3 per 2 cubic foot bag

Bagged product
