Re: Small Load Flat Fee – Change

On November 2, 2022, the Administrative Control Board made changes to the definition of the Small Load Flat Fee.

Effective January 1, 2023, the \$10 Small Load Flat Fee applies to all loads weighing 10,000 pounds or less. This gross weight includes waste, vehicle, and any trailer on the inbound scale.

Any load weighing more than 10,000 pounds on the inbound scale will need to weight back out and will be charged the appropriate fee based upon weight of waste deposited at the facility.

The Small Load Flat Fee is available to customers for the benefit of the District in order to quickly process charges and minimize lines on the outbound scale.

WASATCH

INTEGRATED

waste management district
